

PCS

- *High performance mini-monitor for all spaces*
- *Three-way design maximizes sonic performance.*
- *Completely time and phase coherent for greater realism*
- *Magnetically shielded for placement near computer screens or TVs*
- *Can be placed on tables, desks, or stands*

Maybe you can have it all. The styling and shape to feel comfortable in even the most finely appointed rooms. Advanced engineering to deliver the highest levels of sonic performance with both music and movies. The PCS delivers all this and more in a sleek, muscular package. Using THIEL's innovative compound tweeter/midrange moving system, the PCS's 3-way design exceeds conventional 2-way compact-sized speakers' performance without taking over your room. Equal parts pleasure and practicality, the PCS is the choice for those who want beauty *and* outstanding sound.

*As a nearfield monitor
or the ultimate
desktop speaker ...the
PCS is without peer.*

—John Atkinson, *Stereophile*,
Vol.23, No.6, June 2000

*...the THIEL PCS is one
of the most accurate,
revealing, AND good-
sounding loudspeakers
I've ever heard.*

—Brian Bloom, *Audiophile Audition*,
September '01

THIEL's Award-winning sound

- *Innovations Design & Engineering Award for 2000*

- *An Electronic House 2004 "Product of the Year"
with SS2 SmartSub*

"I find myself quite enamored with the PCS monitors. They represent an excellent-sounding stand-mount with a wide-open and spacious presentation and crisp imaging. Their midrange clarity, transparency and musical detail are hard to beat especially at this price ."

— John Potis,
6Moons.com, November 2004

PCS with THIEL SS2 SmartSub

Compound Driver System

*The PCS's sound performance is
virtually unbeatable ...one of the
best systems we have seen.*

—Audiophile (Hong Kong),
February 2000
