

# MCS1

- Ideally suited for main, center, and rear channel use
- Designed to provide maximum performance with vertical, horizontal, shelf, or stand placement.
- High output delivers great realism for your favorite movies
- High 90 dB efficiency for use with lower power amplifiers
- Excellent clarity and detail provided by innovative, very low distortion drivers.

The THIEL MCS1 is a breakthrough loudspeaker for achieving high performance sound from an easy to place cabinet in home music and video sound systems. The 3-way MCS1's combination of extremely realistic reproduction with high output capability, high efficiency, and magnetic shielding makes it a truly ultimate performance multichannel speaker. The MCS1 is ideally suited for main, center, or rear channel use. It is designed to provide maximum performance with vertical, horizontal, shelf, or stand placement. The beautiful, real wood or laminate cabinetry integrates seamlessly into any room.

*"Strongly recommended"*

—Tom Norton,  
*Stereophile Guide to Home Theater*,  
November 2000

*"...the [MCS1s] provided one of the most credible re-creations of a live musical event I've ever heard..."*

—Tom Müller,  
*The Perfect Vision*,  
May/June 1999
